KECO Coatings: KECO 500

KECO 500 is a resin-bonded lubricant coating designed for dry film lubrication. It gives lubrication for components which are inaccessible after assembly and must function reliably with no maintenance. It is also excellent against chemical and corrosion resistance.

Properties:

Corrosion: Resists most aggressive organic and inorganic solvents

Advantages: Low coefficient friction, has an extended wear, corrosion resistance

Coating Thickness: 0.0003"

Example Applications:

Construction
Business machines
Jet engine parts
Turbines
Mining equipment
Safety equipment
Pistons
Cylinders
Hinge pins
Plug valves
Side valve
Threaded connections
High tension nuts and bolts
Fasteners
