KECO Coatings: KECO 400

KECO 400 is a metallic ceramic coating with performance characteristics of a dry film lubricant. This coating is formulated for thermal barrier applications. KECO 400 operates in high temperatures when Teflon® and other coatings fail.

Properties:

Corrosion: Resists most aggressive organic and inorganic solvents

Heat Resistance: Up 1200°F

Example

Applications:

Glass containers
Glass container molds
Turbines engines
Vaness
Cases
Hubs
Shafts
Discs
Spacers
Tie bolts
Mufflers
Exhaust pipes
Manifolds
Engine bolts
