KECO 800 is an electro conductive coating that delivers high levels of conductivity and eliminates static charge build-up. It is excellent in areas where adhesive, corrosion, and abrasion may be an issue.

#### **Properties:**

**Corrosion:** Resists most aggressive organic and inorganic solvents

**Heat Resistance:** Up to 500°F continuous

**Maximum Temperature:** 550°F

**Lowest temperature:** Cryogenic temperatures

**Coating Thickness:** .0007"- .0015"

#### **Example**

#### **Applications:**

Idler rollers  
Powder coating racks  
Paint fixtures  
Ink pans  
Ink sumps
