

KECO AM

KECO Coatings

KECO Engineered Coatings is offering a unique antimicrobial coating that is safe for humans, deters the growth of microorganisms, and provides long-term protection against corrosion - the KECO AM.

Examples of microorganisms include viruses, bacteria, algae, and fungi.

Any metal substrate can be coated with KECO AM. Available in a variety of colors, the technology inhibits bacteria from growing once applied.

EXAMPLE APPLICATIONS

- Medical equipment
- Hospital furniture
- Pharmaceutical labs
- Food processing equipment
- Appliances
- Restroom accessories
- Shower enclosures
- Handrails
- Schools and childcare facilities
- Playgrounds
