

KECO 400P

KECO Coatings

KECO 400P is a thermal barrier coating application offering release characteristics as well. KECO 400P offers a thermal barrier characteristic which greatly reduces the amount of heat or cold that is transferred through the substrate while offering a non-stick characteristic allowing pieces to slide easily across the substrate.

EXAMPLE APPLICATIONS

- Glass containers
- Glass container molds
- Turbine engines
- Vanes
- Cases
- Hubs
- Shafts
- High Temperature applications

PROPERTIES

CORROSION	Resists most aggressive organic and inorganic solvents
HEAT RESISTANCE	500F top coat
COATING THICKNESS	002"-.004"
