KECO 500 is a resin-bonded lubricant coating designed for dry film lubrication. It gives lubrication for components which are inaccessible after assembly and must function reliably with no maintenance. It is also excellent against chemical and corrosion resistance. KECO 500 also has an extremely long wear life.

**EXAMPLE APPLICATIONS**

- Construction
- Business machines
- Jet engine parts
- Turbines
- Mining equipment
- Safety equipment
- Pistons
- Cylinders
- Hinge pins
- Plug valves
- Side valve
- Threaded connections
- High tension nuts and bolts
- Fasteners
